

I.A.A.F. APPROVED THREE CAMERA, FULLY INDEPENDENT, PHOTO FINISH & TIMING SYSTEM (TWO CAMERAS), INTE-GRATED FULL FRAME VIDEO CAMERA, WIRELESS HIGH RESOLUTION PHOTOFINISH PRIMARY CAMERA WITH COLOR REVERSE ANGLE/BACKUP CAMERA, REMOTE CAMERA ADJUSTMENT, WIND GAUGE, RUNNING TIME CLOCKS, GRAPHICS-CAPABLE SCOREBOARD AND TV CAPABLE DISPLAY SOFTWARE.

The GRAND PRIX ELITE Package includes all the components of the GRAND PRIX Package – Plus! (See: ●)

This GRAND PRIX ELITE Color Photo Finish Package is the absolute state-of-the-art in digital timing and results distribution. When it comes to digital Timing and Photo Finish, this GRAND PRIX ELITE package has **everything you need...and everything you want!**

The package builds on the GRAND PRIX package and includes the finest photo finish cameras equipped with automatically controlled Nikon mount lenses, a wind gauge, wireless start detection system, multiple running time clocks, alphanumeric scoreboard, video display software and hardware, and finally, the convenience of a secure wireless infrastructure that can handle cameras and a whole range of serial devices. This top-of-the-line package is a clear winner.

Components

- **Primary Camera:** ●5000 frames/second, timing enabled, color **EtherLynx PRO**
 - F-mount through-the-lens alignment viewer with Remote Iris control
 - Nikon 80mm – 200mm f2.8 F-mount Zoom lens
 - Digital Zoom option for increased resolution
- **Backup/Reverse Angle Camera:** fully upgradeable 2000 frames/second, timing enabled color **EtherLynx Fusion**
 - Wireless connectivity option
 - F-mount through-the-lens alignment viewer
 - 24mm – 70mm f2.8 F-mount Zoom lens
- **Full-Frame Video Camera:** Fully integrated **IdentiLynx** video images synchronized with photo finish camera, complete with lens, power supply, cabling and tripod.
- Complete Professional Tripod for one camera and 3m+ elevated mounting system for second camera.
- Mounting hardware with precision adjustment for both cameras
- All-inclusive Camera and Start Cable sets
- Built-in interface to scoreboards and wind gauges
- **FinishLynx 32 - Multi Language* Photo Finish Software**
- **LynxPad - Multi Language* Event Management Software**
- 2 x IAAF Compliant Wireless Start Detection System
- Remote Control Camera Positioning platform
- Ultrasonic (IAAF compliant) Wind Gauge
- High Visibility Display Board for Wind Readings
- Wireless connectivity for Wind Gauge and Scoreboards
- 3 x High Visibility LED running time clockS and stands
- 3 x Wireless Photocell for control of Time Clocks
- Fully Graphics-Capable MicroGraph alphanumeric scoreboard/running time clock (96 x 24 pixel array)
- Mounting stand for MicroGraph scoreboard
- AirLynx Wireless Network Infrastructure
- Amplified Antenna for 802.11g Wireless network
- ResultTV data display software for video/computer display
- Broadcast Quality NTSC/PAL Computer to Video display converter

THE GRAND PRIX ELITE PACKAGE

This Color Photo Finish System represents the absolute state-of-the-art in digital timing and results distribution. With 4,000 pixels of image resolution, and a scan rate of 5,000 images/second, the image resolution of the EtherLynx Pro Camera included in this Grand Prix Elite solution is un-matched in the industry. Also, the included EtherLynx Fusion camera can connect wirelessly to make system setup even easier.

EXTENSIVE RESULTS AND INFORMATION DISPLAY OPTIONS

The GRAND PRIX ELITE package includes **five** separate results/information options: (three) High Visibility LED displays suitable for showing elapsed time during a race; (one) MicroGraph 96x24 pixel graphics-capable display for results and messages; (one) high visibility LED wind gauge display; (one) three sided high visibility LED Lap Counter; (one) ResultTV display software and hardware to enable information distribution to announcers (CIS), officials and Closed Circuit or Broadcast television.

All in all, this GRAND PRIX ELITE package brings together three outstanding factors: **quality** – the photofinish cameras will produce higher resolution images than any other systems; **simplicity** - setup and operation are quick and easy; and **regulatory compliance** – all the components meet, or exceed, the requirements of the I.A.A.F.
