

# Gunless Start System

No noxious smoke, no expensive blank cartridges, and...*no gun.*

- Absolute Accuracy
- Direct Interface to FinishLynx
- Choose either Simulated Gun or Tone Signal
  - Compatible with a range of Audio Systems
  - High Visibility Strobe Light
- Battery Powered

Many World Championship events have made the switch from using firearms to start their events to using electronic technology, and it is clear that a change in thinking has arrived: Guns are no longer welcome.

After extensive testing, Lynx has established that this system ensures absolute synchronization between the audible output, the stroboscopic flash, and the electronic signal to your timing system.

## Key To Picture

- a.** Connection to FinishLynx Camera
- b.** Start Signal Output
- c.** Audio Output
- d.** Portable Public Address System
- e.** Microphone Input
- f.** Combined Microphone/Audio Output.

## Specifications
