

Platinum Package

Platinum Package

- **Multiple-Camera Results System** – The **Platinum Package** includes two 2,000 fps EtherLynx Vision cameras as the primary and secondary capture devices. The package also includes an IdentiLynx full-frame video camera, which can produce head-on video that is time-synchronized with the photo-finish results.
- **Video Display Module (VDM)** – The Video Display Module (VDM) enables the live display of FinishLynx running time, results, and images on a video display. Simply connect a compatible video display to the Vision camera back and instantly show live results data at the finish line.
- **Portable LED Video Display** – The Lynx Portable Display is a smaller and more portable version of the 1/2/3-sided Lynx Infield Video Boards, using the same high-quality LEDs and aluminum construction. The compact design, high-resolution LED panel, and multiple mounting options make it an excellent choice for showing live results, scoreboard scripts, images, GIFs, and custom messages at your finish line.

Components

- **EtherLynx Vision (Primary):** 2,000 fps, full-color, timer-enabled, Internal RadioLynx
- **EtherLynx Vision (Secondary):** 2,000 fps, full-color

- FinishLynx32 Photo-Finish Software
 - Auto-Capture & Virtual Photo-Eye (ACM) Plug-In
- LynxPad Event Management Software

Platinum Package: \$26,995

Features and Benefits of the Platinum Package

The **Platinum Package** is a three-camera results system that not only benefits athletes, but the entire program – from parents to officials. Although designed specifically for high school Track & Field, this package also meets the standards approved by the World Athletics (WA). It provides accurate, verifiable results for all track events: Indoor, Outdoor, and Cross Country. By combining two EtherLynx Vision cameras with an IdentiLynx front-facing video camera – and integrating them with the other Platinum components – we've created one of the most powerful high school timing solutions available today.

Portable LED Display

Championship-Level Results with the Platinum Package

The **Platinum Package** delivers **three time-synchronized viewpoints from the finish line**: two line-scan cameras on opposing sides and full-frame IdentiLynx video capturing from the front. The 2,000 fps Vision camera serves as the primary photo-finish device, while the second 2,000 fps Vision captures reverse-angle images from the opposite perspective.

When you invest in FinishLynx technology, you're joining a community of thousands of other high schools across the country that have already made the same commitment to their track programs. Lynx technology is used at every level of competition, and is manufactured in-house by our skilled technicians. No matter how the system is used, it is reassuring to know that a Lynx support technician is only a click or phone call away.

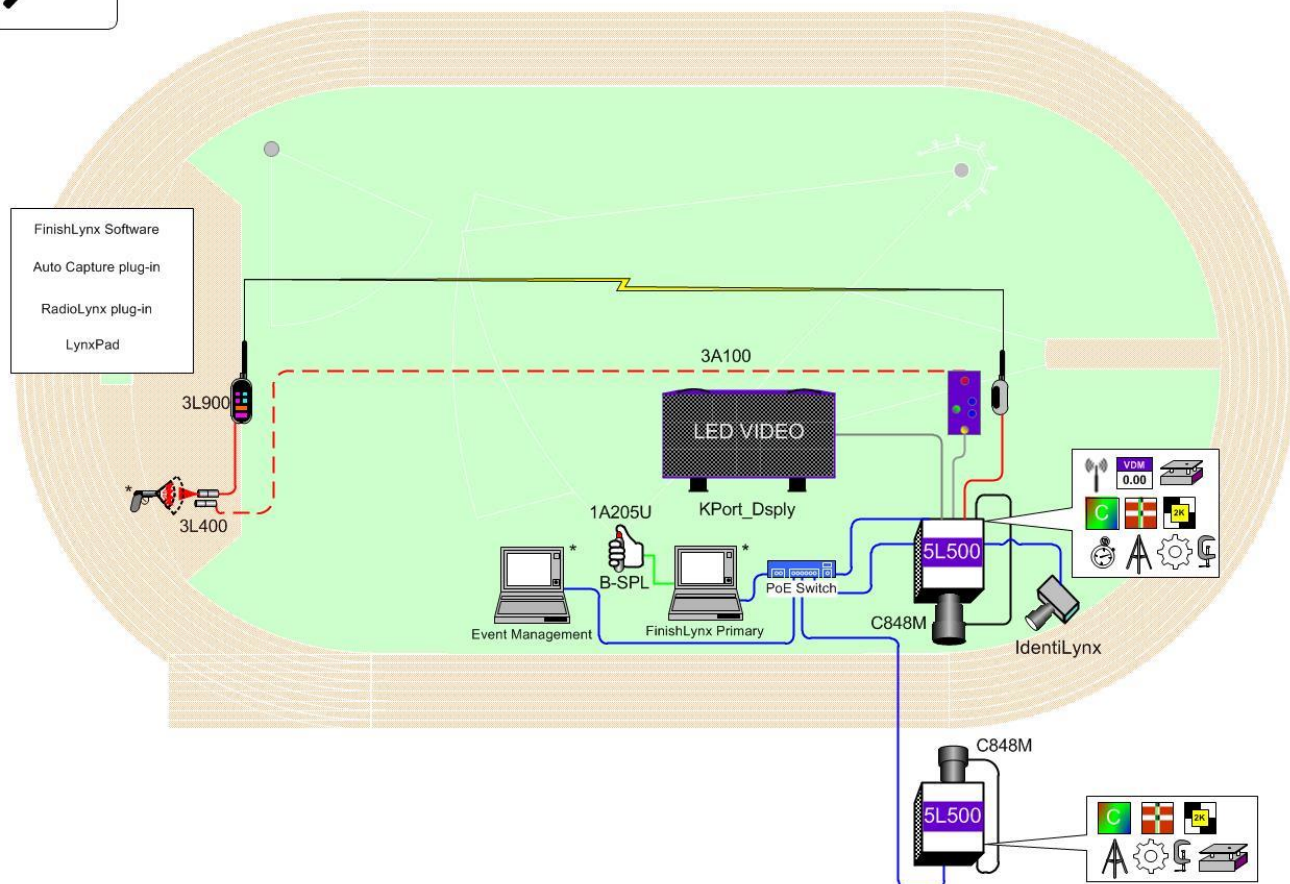

Why Choose Platinum?

Key Components

- **Primary Camera:** EtherLynx Vision 2,000 fps, Full-Color, Timer-Enabled, Internal RadioLynx
- **Second Camera:** EtherLynx Vision 2,000 fps, Full-Color
- IdentiLynx Full-Frame Video Integration
- RadioLynx Wireless Start System
- Lynx Portable Display
- Video Display Module (VDM)
