

VeriLynx Silver Package

Better Images & Camera Control

The VeriLynx **Silver Package** builds off the Bronze Package by upgrading to the VeriLynx V60 camera and adding the Network COM Port (NCP) Plug-in. The V60 camera boasts an impressive **1280 x 720 pixels at 60 frames per second**, ensuring accurate field event verification. Align the VeriLynx camera with the take-off board, load the field event start list, capture, verify, and timestamp every attempt.
