

## VeriLynx Silver Package

## Better Images & Camera Control

The VeriLynx **Silver Package** builds off the Bronze Package by upgrading to the VeriLynx V60 camera. While the Bronze Package works well for smaller local events, the Silver Package is ideal for regional or state-level events.

The V60 camera boasts an impressive 1280 x 720 pixels at 60 frames per second, ensuring accurate field event verification. Align the VeriLynx camera with the take-off board, load the field event start list, capture, verify, and timestamp every attempt.

## Components

- VeriLynx V60 2D, Full Color, 60 fps, Full-Frame Video Camera
