What's New

Flat HTML Export

LynxPad can now export reports in Flat HTML format, making it compatible with online results systems such as MileSplit.

» To export results in Flat HTML:

1. Go to **Reports|Results...**
2. Select the events to be included.
3. Click **Preview**.
4. Click the **Save as Flat HTML...** button (above the results preview).
5. Enter a *filename* and browse to the desired location.
6. Click **Save**.

General Improvements

» Fixed issue where male relay members were not saved correctly after initial entry
