

Lynx System Developers, Inc.
Attn. Mr. Edward Evansen
179 Ward Hill Avenue
Haverhill, MA 01938
USA

30 March 2012

Dear Mr. Evansen,

Technological devices (e.g. Timing Systems, Wind Gauges, Distance Measuring Equipment etc.) used in athletics are currently not yet issued a certificate by the IAAF and therefore no certified lists for such devices are available at present. The IAAF is still working on the exact certification criteria and specification for these items.

For now, the criterion is that the accuracy of the equipment must be verified by an appropriate organisation accredited by the national measurement authority, such that all measurements can be traced back to national and international measurement standards.

To our knowledge and experience, the equipment of **Lynx** meets this condition and is also successfully used in international athletics competitions organised under IAAF Rules and Regulations.

Sincerely,

Imre MÁTRAHÁZI

Competitions Department, Technical Manager
